

Specialty Packages

Features

With A-Energy, AVID has integrated functional design with energy efficiency. AVID designers focus on:

- Window opening sizes
- Window orientation
- Advanced framing construction
- Modern materials:
 - Structural insulated panels (SIPs)*
 - Insulated concrete forms (ICFs),*
 - 2x6 standard frame construction*
 - Energy efficient products*

State-of-the-art products and construction techniques are all part of the A-Energy specialty package offered only by AVID.

A-Energy™ - saving more than just money

Experts from around the world predict that the cost of fuel will continue to rise at alarming and unprecedented rates. Builders and home buyers are increasingly concerned about the overall energy efficiency of their homes. AVID's A-Energy plans are designed to address that concern. A-Energy can be applied to existing plans or built into the design of a custom layout. Utilizing modern construction methods and energy efficient building components, A-Energy plan sets can help save money today and tomorrow. More than saving money, A-Energy is a "specialty" package that saves the environment for generations to come.

Other packages

Other AVID Specialty Packages include:

A-Value™

Whole house modeling for material and labor savings.

A-Access™

Home designs for home owners who want to "age in place" or have special access needs.
